Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7 and 10-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Ezure et al. (JP 406322162 A).

Ezure et al. disclose a die cleaning method. The method comprises spraying the molding with water at 40-100°C or steam at 100-150°C by using a high pressure cleaner under 10-200 Kg/Cm² pressure to clean the molding. See the abstract.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 8-9 and 11-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ezure et al. in combination with Doan et al. (3,084,075).

Ezure et al. as discussed supra does not teach the heating step and the heating temperature as claimed.

Doan et al. disclose a method of removal of the wax with water at temperature of 210°F adequate to melt out remaining wax.

It would have been obvious for one skilled in the art at the time applicant invented the claimed process to use the heating step taught by Doan et al. in the Ezure et al. process to enhance the cleaning process.
